

Project Planning Phase

Milestone List

Team ID	PNT2022TMID01656
Project Name	Early Detection of Chronic Kidney Disease using Machine Learning

Sprint	Task
Sprint-1 (24 th Oct to 30 th Oct)	<ul style="list-style-type: none">Dataset is downloaded and data analysis is performedData is cleaned, missing values are handled, and label encoding is performedLogin in using login credentials
Sprint-2 (31 th oct to 04 Nov)	<ul style="list-style-type: none">Register into diagnosis toolDataset is split into train and testModels are built for prediction and classification
Sprint-3 (04 Nov to 13 Nov)	<ul style="list-style-type: none">Symptoms and test vitals viewedEvaluating the modelsStoring login details
Sprint-4 (14 Nov to 20 Nov)	<ul style="list-style-type: none">Test results can be viewedML model to be trained on IBM WatsonIntegrating the website and HTML mode
